Student Comments

Kobie Hartman, Class of 2020

“The Education Department at CBC is definitely shaping me into a better teacher. The professors in our department are wonderful and really care about us and our future as educators.”

Sydney Hawkins, Class of 2020

“In my time in the education program, I have not only been challenged as a student but a future educator. It is evident that the education professors truly care about you!”

Career Opportunities

Elementary Education

An elementary teacher has the opportunity to concentrate on a grade level and teaches all subjects to that grade. The grade span is typically K-4, but may include 5th or 6th grade. A true focus at elementary is in grade-level reading and writing. Reaching students at this younger age helps them move toward appropriate development.

Middle Level Education

A middle level teacher has the opportunity to focus on a subject and begin to develop deeper exploration into that subject. Middle level may include grades 5-8 where teachers help students develop social skills they will need to be successful later in life. These skills include collaboration, communication, critical thinking and problem solving.

Secondary Education

High school teachers truly have an opportunity to specialize in a subject or two. The content is investigated, analyzed and evaluated for the purpose of learning. The goal here is to prepare students for college or a career. In addition, high school teachers provide guidance to students as they make decisions that will impact their future and the future those students will touch.

A student takes part in a disciplinary reading class activity.

Mission Statement

“The vision of the Central Baptist College Teacher Education Program is to develop professional educators who will leave a lasting legacy in the lives of students. The mission of the Central Baptist College Teacher Education Program is to provide courses and clinical experiences that will promote the development of professional educators.”

“Dedicated faculty of Central Baptist College provide quality instruction in a caring and spiritual environment.”

- Dr. M.E. Bender,
“She May Be Small... but There are Those who Love Her So: The History of Central Baptist College”

Internships

Madi Townsend, Class of 2019

“Working together and having multiple ideas/perspectives can make a world of difference in the outcome you are striving to reach. Meaning, I learned a lot from my mentor teacher and so many other employees in that school and saw firsthand how much teamwork truly means in the education of our students.”

Addie Pittman, Class of 2017

“I student-taught at Greenbrier Eastside Elementary (got a job in the same district, different school). My intern experience was amazing. I had a wonderful mentor teacher who invested a lot of time to help me learn and grow as a teacher.”
